Dear Cassidy,

On behalf of the Western Activities Committee and of all Western Federal Credit Union associates in attendance, I want to thank you for making our 1999 Holiday Party an event to remember.

It was with skepticism that my committee approached the selection of a DJ to entertain our party guests. Our experiences with DJ's in the past had fallen far short of our expectations. However, upon meeting with you and discussing plans for creating a party program, our apprehension was eased by your professional and confident manner.

You provided an excellent entertainment experience by delivering a tasteful yet lively program that appealed to literally all attendees. Your Icebreakers effectively created a fun party environment.

Your ability to read and meet the needs of the audience allowed everyone to feel comfortable. I enjoyed seeing so many of my associates—people whom I never thought I would see having so much fun—dance the night away!

Again I thank you for your superior work. You allayed all of our fears with your enthusiasm and talent—it was a pleasure to work with you, and my committee and I look forward to working with you again and again in years to come.

Sincerely,

Paul Gonzales

President,
Western Activities Committee
